GUILLIOTINE NOW

IS IDLE IN PARIS

Murderers Shown Great Leniency in France.

Paris.—The guillotine is becoming a relic of the past as murderers are granted more leniency in France today than ever before in history.

Within four days, three self-confessed parricides and one sweetheart killer were acquitted. The executioner has not been called upon for work in Paris for nearly three years while in the provinces the guillotine has not fallen in months and only a few times in the last several years.

Sentences of death imposed on five women during the year for the most horrible murders, including the poisoning of babies and husbands, were commuted to life imprisonment; but some legal experts declared she would have been acquitted had she followed a different sort of defense.

Mrs. Jane Weller, who shot and killed her husband after an eight year marriage, was acquitted on the grounds of insanity. She was sentenced to five years' imprisonment; but some legal experts declared she would have been acquitted had she followed a different sort of defense.
